Counting/Billing Process

Deregistration Deadline:

We have set a Deregistration Deadline of 14 days after the date the competitions are due to start – if a player's deregistration is completed on or prior to the Deregistration Deadline, we will not count them in their centre's billing total.

The competition start date will be as per the affiliation form submitted by the centre.

Census Date:

We will take the end of the Competition Period (30 September for Winter and 31 March for Summer) to be the Census Date.

Counting process:

The counting process for our final player census will be as follows:

1. We will count all Registered players.
2. We will count all Deregistered players whose date of deregistration is later than the Deregistration Deadline.
3. We will count all players whose registration is Pending as at the Final Census Date. We will issue guidance to clubs to ensure that they either approve or decline any pending registrations to ensure that they are accurately billed.

In order to ensure that we do not bill multiple times for any one player at any given centre, we only bill the first billable registration for any player (i.e. that with the first registration date) for each centre for each season (i.e., summer/winter). If a player plays at multiple centres or for multiple seasons, they will be counted for billing multiple times.

Registration invoices

Centres will be invoiced for players' registration fees on per-Season basis – one following the Winter Season and one following the Summer season.
