

FOREWORD

LEADING AND SUPPORTING FOOTBALL ACROSS ALL CULTURES AND COMMUNITIES

As the world slowly emerges from the Covid-19 pandemic, more than ever, football continues to play an important role in bringing NSW communities together.

The role our game has played in supporting the recovery from the Covid-19 pandemic is a valuable reminder of how much football means to our communities and the significant responsibilities that we all have as caretakers of this great game.

While the global pandemic has presented considerable challenges, it also has also offered unprecedented opportunities for our game and the way it is administered.

Every level of the game must continue to test the way it operates and challenge itself to rethink the delivery of our sport. And we are here to lead and help.

Football NSW will focus on improved support, service delivery, guidance, and empowerment of our Members. Accountability will be more important than ever, along with an aim of removing duplication whilst ensuring a genuine emphasis on the football experience of all participants.

We want to drive a new era of alignment and collaboration between our Members, Football NSW, and Football Australia. Right across the football family, we must ensure greater clarity in roles and responsibilities at every level.

The fundamentals of our strategy for football in NSW align with Football Australia's national strategy. As Members adopt key, relevant strategies in their own plans, the football community will become a stronger force as all levels of the game progress in the same direction.

The completion of a new constitution and governance framework for Football NSW, will make us fit for purpose both now and into the future.

The co-hosting of the FIFA Women's World Cup in 2023 offers the chance to galvanise the sport like nothing before.

We need to make a concerted effort to maximise the opportunities that hosting the world's biggest women's sporting event offers, aiming for increased participation, widespread investment in facilities and programs, and the cementing of football as a sport that is a driver of health and community improvements through being inclusive and accessible.

In all of this, we will never lose sight of why we are here – to further the beautiful game. Our sport has a heritage that is not celebrated enough, despite collectively having achieved so much over the past century.

This plan is the framework to make all of this happen. The opportunities are boundless.

Football is the sport for all and the game that can engage for a lifetime.
